

Mission: Leadership

Lifting the Mask

The Leadership Principles

- Serve to lead.
- You are always a leader.
- Leadership is not about what you do, it is about who you are and the values that define you.
- Honesty and integrity are at the core of great leadership.
- Protect and care for those that you lead.
- Leadership is about others, but it starts with us.
- Leaders do not need to have all of the answers.
- Strive for mastery.
- Leadership is about balancing the needs of the task at hand and the people we are responsible for.
- Articulate the vision.
